

```
import java.util.*;
class arraylistdemo {
    public static void main(String[] args)
    {
        ArrayList l=new ArrayList();
        l.add("A");
        l.add(10);
        l.add("A");
        l.add(null);
        System.out.println(l);
        l.remove(2);
        System.out.println(l);
        l.add(2, "M");
        l.add("N");
        System.out.println(l);
    }
}
```

Output:-

```
C:\Windows\system32\cmd.exe
[A, 10, A, null]
[A, 10, null]
[A, 10, M, null, N]
Press any key to continue . . .
