Form

⇒ Toolbox - It displays the types of object that we can draw on a form. The toolbox may not list all possible objects we can draw on a form. To get a complete list of objects we can display in our Toolbox, press Ctrl+T.

To view/hide Toolbox in VB IDE
View → click on Toolbox.

⇒ Project Explorer - It lists all the files that make up a single Visual Basic program.

To view/hide Project Explorer

View → Project Explorer
