

```
import java.lang.reflect.*;

class students
{
    int roll;
    String name;
    void get(){
    }
    void show()
    {
    }
}
class TestClass
{
    public static void main(String[] args)
    {
        students s = new students();
        Class c1=s.getClass();
students s1 = new students();
        Class c2=s1.getClass();
        System.out.println("c1.hashCode is : "+c1.hashCode());
System.out.println("c2.hashCode is : "+c2.hashCode());
System.out.println("Both are same or not ?"+(c1==c2));

    }
}
```

C:\Windows\system32\cmd.exe

```
c1.hashCode is : 31168322
c2.hashCode is : 31168322
Both are same or not ?true
Press any key to continue . . .
```
