displays and allows a user to select from a list of files.

(p) <u>Shape</u> — The Shape control adds a rectangle, square, ellipse or circle to a form.

(q) <u>Line</u> — The Line control adds a straight line segment to a form.

(r) <u>Image</u> — The Image control displays bitmaps, icons or Windows metafiles. It acts like a command button control when clicked.

(s) Data — The data control enables us to connect to an existing database and display information from it on forms.

(t) <u>OLE</u> — (Object Linking & Embedding) — The OLE container control embeds data into a Visu Visual Basic Application.
